

LED Signage Estate Visibility Review

A quick self-assessment for multi-site LED signage estates

Use this checklist to understand how visible, controllable and protected your LED signage estate is today.

CHECKLIST QUESTION		YES	NO	PARTIAL
	1. Do you know which LED signage assets are operating across all sites?	☐	☐	☐
	2. Do you know about issues before customers or site staff report them?	☐	☐	☐
	3. Can you see online, offline, warning or at-risk assets?	☐	☐	☐
	4. Can you compare performance between sites?	☐	☐	☐
	5. Can you control operating times remotely?	☐	☐	☐
	6. Can you dim or adjust output by site or schedule?	☐	☐	☐
	7. Can you track or estimate energy savings?	☐	☐	☐
	8. Can engineers see useful fault information before attending site?	☐	☐	☐
	9. Can urgent issues be separated from lower-priority alerts?	☐	☐	☐
	10. Can assets be protected if abnormal electrical behaviour is detected?	☐	☐	☐
	11. Can different manufacturers' products be managed in one place?	☐	☐	☐

Mostly 'No' or 'Partial'?

There may be a visibility gap across your estate.
